Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, December 28, 2014 – 10:00 a.m.

Our beautiful way of Sahaj Marg will mark this time much more than we can imagine today. It will leave solid foundations on which the fervent abhyasis of the future will stand, in a time when, in many ways, everything on Earth will need to be reconsidered. Let us continue to work fervently to reach the desired level and ensure that this Mission is definitively positioned in this world. The Master chosen to ensure its continuity has all the assets in hand, shall we say, to properly assume this heavy task. Many decisions will have to be made; he will be constantly guided and enlightened as best as possible about what needs to be done. He will not be alone; we will always keep watch by his side and support him – let him never doubt it.

In a spiritual way like this, more than anywhere else, abhyasis must unite and put aside dissensions on the human plane. Surely, better could be done, not only for the good of each and every one, but also for the unity required to support the action of the incarnate Master. Our dear Kamlesh will do what is necessary; we give him our support and all possible love, to be relayed abundantly to all our abhyasis. A new era begins. May all get truly motivated and give their best to strengthen this sacred edifice – Sahaj Marg as recognised and supported by the higher powers.

Very special blessings to all on this blessed day of rejoicing around our great and dear Parthasarathi, rightly celebrated for his return among us and, from now on, more attentive than ever to you all.

Babuji
