Revered Babuji Maharaj

Whispers from The Brighter World

Tuesday, December 30, 2014 – 10:00 a.m.

The Mission is following its course and positioning itself in time. It is winning hearts, open and in need of a connection with the Divine. In its own manner, it is preparing the future of humanity, under the guidance of the higher powers, attentive to the future of this world that is presently so disoriented. The work of the Mission is expanding, it is doing its best, and the results – although not very visible – are self-evident, which delights all of us here. We do not perform big and obvious miracles, that is not the point, but effective help is given to beings in need and we provide it to the best of our ability. Nothing is ever too much in this register; it is so gratifying for all of us here to see such satisfactory results, with respect to the Mission as a whole.

Since the beginning, each of the Masters invested in its service has given it the best; it is now positioning itself among the major paths recognised by humans. Efforts are bearing fruit. Each of our abhyasis can experience this, although in this field it is not easy to accurately assess the progress one is able to make. The egregore of the Mission is growing, and this progress is very heartening; it reinforces us in an action, attracting our attention more and more, to take this Mission as far as it can go.

Many beautiful souls are getting involved in serving. Blessed are they and strengthened on their path as befits them. Although no life is easy, not neglecting this

important aspect indicates a real potential that deserves all our attention and necessary support, even though it cannot avert human tragedies and sufferings.

To all of you the best, under our constant blessings.

Babuji
