Whispers from The Brighter World

Wednesday, December 31, 2014 — 10:00 a.m.

These messages help many of our abhyasis as evidenced by the comments that have been made to you. The attention of all of us here is focused on the Mission, in which there is still so much to do. Unity must prevail, egos should be calmed down and all abhyasis should rather consider how fortunate they are to have the path of Sahaj Marg. Its expansion in people's hearts is a blessing. It is given to the humans in these times which are seriously destabilised by an aberrant way of life that disturbs the energies. Meditation leads humans to rejuvenate themselves, to consider an incarnation from a different perspective and to be committed to their own well-being on Earth and to the elevation of their souls.

"When it is considered in this way, life takes on another meaning. Transcending the grossness of the world is a major advantage, one that is especially crucial for the development of the being. The way of Sahaj Marg is working generously in this direction; not every aspect of the relevant action is understood, but it is more effective than it seems.

"Letting go and setting one's aim decisively on the conquest of the sovereign Spirit lend another dimension to life on Earth. So many people are wandering aimlessly, without any prospects other than a daily routine that is, for some, particularly hard.

"No life is easy; each person is advancing in his or her own manner. Nothing is in vain, everything matters — both evil and good. The latter should rather be complied with. May all our abhyasis become aware of this and review their behaviour carefully, for their own good and, hence, that of the Mission. May all be motivated and contribute to the development of this way of the heart, unprecedented in its effects, under our blessings."
