Whispers from The Brighter World

Saturday, January 17, 2015 – 10:00 a.m.

Sahaj Marg brings to humans a method that enables them to get past, or at least to control, egotistic tendencies and all that can slow down their evolution. There is much to do; after so many years we still witness undesirable behaviours. May our abhyasis, in the wake of the new spiritual Master of this Mission, who is vested with our powers by divine will, unite more than ever on this uncommon and salutary journey for the human beings of this time. There is so much better to do beyond discord; unity is strength, power of action and achievement of the best.

The expansion of the Mission is very satisfactory. It is being strengthened on all levels – slowly, but in a rational and sure manner. These daily messages are given for the benefit of all our abhyasis. Some may surprise them, but they are not children; it is up to them to adapt to a reality that sooner or later will catch up with them. These thousands of messages are within their reach. They can nourish themselves on them as they see fit, and even be enlightened on sensitive matters.

The Sahaj Marg Mission has nothing to hide. It is doing its utmost, on all levels, to ensure that the teachings, conforming with current reality, can provide daily help to the greatest number. All our abhyasis are important to us, they are dear to us in more than

one way. We are working to help and support each of them, even if our views are not theirs. We work for the good of all.

Special blessings to the whole of this Mission.
