Whispers from The Brighter World

Sunday, January 18, 2015 – 10:00 a.m.

These thousands of messages constitute a contribution whose importance will become evident over time. Our Mission does not lack resources; it will need more and more of them to meet a growing demand. Faith is the only true refuge for human beings, often devastated in this world by excesses of all kinds.

When will violence cease. By manifesting itself as it always does in one place or another here below, it restricts human beings to material considerations, whereas they could make real progress and capture other energies more subtle and in line with their spiritual elevation.

May all our abhyasis seize the opportunity offered them and not waste time. Here, a special space is offered them – beyond words, a subtle energy is diffused and captured by beings sensitive to its benefits. In this way of the heart, everything is done with the precise purpose of sensitising the greatest number of hearts to the benefits it can provide. The new era will open up new prospects; many beautiful souls are coming back to help humanity go beyond the darkness that overwhelms it, in many areas.

Breaking free of habits, some of which are ancestral, is not easy. But many opportunities will present themselves, and for the most part they will be seized – for the good of all. We will come back to this.

May all our brothers and sisters focus on the essential; they will not regret it. Everything is ephemeral in this world of matter. Blessed are our brothers and sisters,

committed as they should be to this path – rewarding in every way for their spiritual elevation. We support them as much as possible.

May they all be blessed!

Babuji
