Whispers from The Brighter World

Tuesday, January 20, 2015 – 10:00 a.m.

The divine ways cannot be understood by human beings, how could they be; they are beyond human reality. Miracles happen, but they are not always perceptible to our brothers and sisters, who will have to integrate the world of the Spirit to understand the true significance of an incarnation – particularly their own. Here surrender and trust are required; they are the sign of true faith, one that elevates the soul to its highest destiny and adorns the being with an unparalleled beauty. The path to realisation is long. Here in our Mission a very special work is being done; it is out of the ordinary and cannot be perceived in its entirety by human beings.

May our abhyasis advance serenely, confident in their future. We do not promise the moon, only a truth which they will be able to discover in due course and appreciate, depending on their personal evolution. We are seeing to it. All our brothers and sisters are advancing on this extraordinary journey, whose future will bring the whole truth to light. May all be reassured, no one is ignored; the Mission forms a whole, a force in which each link has its own importance and contributes to this Mission's expansion and success, in the service of a distressed humanity. Many human beings are appealing to the higher powers to help this world which is suffering, as never before.

May all be blessed and strengthened in their daily lives. The best to all. From our united hearts,

Babuji
