Whispers from The Brighter World

Friday, January 23, 2015 — 10:00 a.m.

Life hides all its mystery from human beings. Whatever they may think, many facets escape them. They see only one aspect of life; it cannot be otherwise in the current era in which materialism prevails over everything to an alarming degree. Changes need to happen in order that human beings may be led to a more balanced view of phenomena. Upheavals will occur and facilitate the transformation of humanity — all by divine grace — and the best will come to pass, as per the laws of evolution. Humanity still has a long way to go before this world becomes one of harmony and spiritual realisation for a large majority of people. We are working accordingly.

"An aspiration for the Divine is manifesting in people's hearts; many are looking for something different — a real approach that can help them achieve the goal, one that enchants the soul beyond all expression. There lies the mystery, the ideal to be achieved. We are working towards this, you can be sure, and thus the divine purpose will be achieved."
