Whispers from The Brighter World

Saturday, January 24, 2015 – 10:00 a.m.

An Earthly incarnation creates human attachments. They are part of the rules governing this world and constituting each person's karma. Many beautiful souls are evolving in our Mission; this dear brother has joined his Master, and on that account he is not to be pitied. His commitment has been unfailing. Henceforth he is pursuing his path, as do our faithful abhyasis after having returned to this blessed place where their spiritual commitment continues. Thus all is well, the divine ways cannot be circumvented; they plan what must be for the evolution of each person. Many brothers and sisters are joining our Mission. It is the path of this time, it goes to the essential: the goal to be reached by each living being as a matter of priority.

Blessed are those who dedicate themselves to such an approach without neglecting their other duties on the human plane; the two are fully compatible. A balance is thus created and it fosters the stability of each person. No one is perfect, let's be realistic. Karma remains the same, although it can be significantly lightened through such an approach, one whose efficacy has long been proven.

The Mission continues on its way. Our dear Kamlesh is visiting our abhyasis in France, in America, and his work is just beginning. It too will be effective, just as we expect from him. New rules will be established; the progress of the Mission in the world calls for changes that will be beneficial to all. We constantly watch over and support

this way of the heart, whose chosen leader will reinforce what already exists, for the sake of its worldwide development.

Blessings to all.

Babuji
