Whispers from The Brighter World

Sunday, January 25, 2015 — 10:00 a.m.

Relax, life goes on; what must be will be. You have always done your best, and service is your priority. What more can anyone ask! Each person in the Mission plays his or her specific role. One and all are important. They are the links of a chain that stretches around the world and that will defy time. These messages will need to be treasured. In many countries, they will be treated as documents of considerable value for our Mission. Abhyasis of the future will acknowledge the validity of these statements. So many changes will occur on Earth; human perceptions will be refined, and following a spiritual path such as this will result in a more significant advancement.

"Everything is falling into place very well. The changes will not happen right away, but some aspects of life here below must be planned for, now — the way of Sahaj Marg will leave its mark on the world. There are strong signs today that demonstrate its impact in various countries, and this is just the beginning. Thus are the divine ways. They cannot be circumvented, as we have said many a time.

"May all our brothers and sisters become aware of this reality, and may they take full advantage of the opportunity granted them in an incarnation and [the possibility for] major advancement through a way of the heart whose treasures have not yet been fully revealed.

"Blessings to all."
