Whispers from The Brighter World

Monday, January 26, 2015 — 10:00 a.m.

Uncertainties are inevitable on the human plane. Human beings plan their lives, and what does God do? He laughs. Thus the divine laws impose that which must come about, and people can only comply — doesn't everything have its raison d'être? Human beings have a very limited view of things in an illusory world that constantly deceives them. Here we see it differently, hence our ability to solve problems. Since the dawn of time, humanity has been suffering. Things will be different one day, after big changes whose reality cannot be seen by human beings of today.

"Through its action on the spiritual plane, the way of Sahaj Marg is working for the welfare of one and all, even if the effects of this are not visible at the human level. That which is achieved in a way like this is significant; it contributes to the general elevation. What is good for a human being benefits everyone. Negativity, violence and all wickedness released by evil are an unspeakable plague. Contributing to the good of humanity by working on oneself — and by extension for the general good — is a generous act that testifies to great wisdom. We can see in this Mission of Sahaj Marg that brothers and sisters are advancing without really even being aware of it; there lies the greatest asset of this extraordinary path of the heart.

"Blessings to all."
