Whispers from The Brighter World

Love is enchanting, and at this level, it can work miracles, creating a special vibration that leads to osmosis. Spiritual life promotes subtle states whose beauty cannot but delight the soul and, even more, embellish it. This is an area that transcends reason. God's ways are mysterious to humans, and this is not about to change. Advancing spiritually refines perceptions and can induce a state of bliss. Blessed are those who reach this stage; all this is experienced in the shadows, shall we say — the best is achieved in the silence of the heart. An approach of this kind promotes an awakening that transforms the being with regard to his or her personal elevation. Ultimately, it is there that the purpose of an incarnation lies; sometimes it takes many incarnations to attain it.

"Our abhyasis have found the path, one that can help them on this long journey in which many obstacles must be overcome. Blessed are the pure in heart, for they will see the light — we are working for this. Although it is not easy to achieve, this goal is the main objective of our Mission. It is up to one and all to be committed, to motivate themselves and to reach it, being carried by our action and our constant blessings."
