Whispers from The Brighter World

Tuesday, February 3, 2015 – 10:00 a.m.

This time of the year is important in our Mission; it is a milestone. Each year it allows for a further step into hearts that are receptive to this very special energy. Our Grand Master, Lalaji, holds a special place in the divine scheme where his personality particularly stands out. He is the 'morning star', guidance itself, capable of transforming certain beings at his discretion for the sake of this unique path, which is far from having revealed all its possibilities. Nothing is trivial in this practice, simplified to integrate more easily into the everyday lives of our brothers and sisters, in a situation that is most often destabilising to the balance of subtle energies.

Solid foundations are now being established in this world – centre points much more important than it may seem. The current challenge is to somehow defy this world of illusions, allowing the creation of axes necessary for vibrational harmony. The great many phenomena disturbing all that is living here below should be reduced in their harmful action. The spiritual world is not to be neglected; it grows in action. Beautiful and great souls provide for it, and one day the divine goal will be achieved. Rest assured, this will come to be – your personal action contributes to it.

Blessed and carried you are, all of you, so dear to our hearts.

Babuji
