Whispers from The Brighter World

Tuesday, February 3, 2015 — 10:00 a.m.

This time of the year is important in our Mission; it is a milestone. Each year it allows for a further step into hearts that are receptive to this very special energy. Our Grand Master, Lalaji, holds a special place in the divine scheme where his personality, in particular, stands out. He is the 'morning star', the guidance itself, capable of transforming certain beings as needed for the sake of this unique path whose possibilities are far from being revealed. Nothing is a trivial matter in this practice, simplified to fit more easily into the everyday lives of our brothers and sisters, whose environment is, more often than not, disturbing to the balance of subtle energies.

"From this time forward, solid bases are being established in this world. They are centre points and much more important than they may seem. The current challenge is to somehow defy this world of illusion, allowing the creation of axes that are required for vibrational harmony. There should be a reduction in the harmful action of the many phenomena that disturb all that lives here below. The spiritual world is not to be overlooked; its action is growing. Beautiful and great souls are attending to it, and one day the divine goal will be achieved. This will happen, you can be sure. Your personal action contributes to it.

"All of you are carried and blessed, you who are very dear to our hearts."
