My Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Wednesday, February 4, 2015 — 10:00 a.m.

The Mission of Sahaj Marg will evolve over time, as it has been doing since its inception. Other principles will have to be considered, and new structures, along with their corresponding management, will be established quite naturally. The Mission's expansion in the world will call for new regulations, particularly with regard to preceptorship, which will have to be redefined going forward and subject to renewal depending on the circumstances. Real commitment is the basis of any Mission, and time will show how functionaries are working for this unique way of the heart. Everything is taken into account. We want the best for the entire Mission and for each of our brothers and sisters committed in their own manner to this extraordinary journey.

"Big changes will occur on Earth. Not only will our Mission be able to adapt, but it will also increase in effectiveness in order to meet the growing need of sincere hearts who aspire to rise spiritually. Beautiful souls who have worked in this beautiful way of Sahaj Marg do not forget it, and they continue in their own manner to strive for its welfare. The Masters are so very attentive to the entire Mission; nothing escapes them. Everything is recorded, of this you can be sure. Being committed to serving the Masters is not a trivial matter; supporting the living Master is a priority, a significant aspect of this path and one to which we attach great importance.

"Acting with your heart, eagerly, is the most beautiful commitment possible; the spiritual Master does the rest by working with the powers vested in him to concretise that which is specified at our level. All is well for Sahaj Marg. It is up to all of you to be fully committed under our blessings."
