My Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Thursday, February 5, 2015 — 10:00 a.m.

Life changes, the world evolves and the Mission is growing; all this requires a new way of viewing things related to its organisational structure, at every level. We are letting our dear Kamlesh settle into his role as Master before making some necessary changes. Adjustments will need to be made in several areas. The passage of time has brought into view the changes needed for the welfare of all. We are keeping an eye on it. New rules will have to be set forth; one thing at a time.

"Our beloved and great Parthasarathi is henceforth watching over this Mission that is so dear to him. Like all of us here, he will support his successor — the one who is vested with the appropriate power for his mission in this new status that has been granted to him. We did not choose him in vain; he has all the necessary resources, and these will prove truly effective when the time comes for him to act as is proper. At such a level, nothing is done in vain. The growing number of abhyasis will require new arrangements. We will come back to this, suggesting a few aspects to be modified.

"Our abhyasis can be sure that everything will be done for their welfare and that of the Mission. We will inspire the present Master in order to guide him in the restructuring that is required in certain areas, especially with regard to the practice. May all rest assured — all that is envisioned will be implemented in order to promote the advancement of our brothers and sisters. Very special blessings."
