Whispers from The Brighter World

Sunday, February 8, 2015 — 10:00 a.m.

We cannot repeat things enough; as you know, repetition is necessary for certain truths to be recorded in people's minds. Humans are much too quick to forget when it comes to important matters. This hectic world is struggling to find its bearings; essential truths are neglected by the majority of people. With regard for the well-being of a humanity in distress, we can only deplore this. Mistakes are made that cannot be fixed, even if they endanger the universal balance. Working in our own manner for the welfare of each of our brothers and sisters who are committed to the quest for the Divine — this is what we can do best to contribute to human evolution. What is good for human beings can only prevail and change the mindset of these troubled times.

"Our dear Kamlesh has the required skills to effectively carry out the mission of Sahaj Marg to its full extent. Learning how to allocate is nothing new for him, and he will live up to our expectations. Doesn't everything have its raison d'être! Many changes will occur to reorganise the existing structure, lending it more weight and scope. It is said that there is strength in unity, and this unity is essential in a path like ours in which referral to the living Master must be first and foremost. To be personally committed, with faith and determination, leads to a certain transformation of which most of our abhyasis are not fully aware, though it does occur. There lies the purpose of this work.

"Blessings to all."
