Whispers from The Brighter World

Monday, February 9, 2015 — 10:00 a.m.

The Mission is growing, and this will lead to changes in certain practices, including the sittings and, for the Master, the weddings and other events — all these will need to be adapted to present times and the growing number of abhyasis. This is only the beginning; new habits will have to be adopted for the good of all. The powers of the incarnate Master will be increasingly broadened to meet the needs of this rapidly growing Mission. Times are changing and this has only just begun; over time, reorganising the Mission on the material plane will become a necessity. Our dear Kamlesh has the necessary fibre [for this], and we will guide him in due course.

"Since the beginning, the Masters have adapted to circumstances — this is in the order of things — and their support remains available to their successors. A very broad view of situations is necessary in order to bring about, on the material plane, the cohesion of this spiritual path — and to do so while fully respecting the teachings of previous Masters. In some way, they made this Mission, and it must now adapt to the needs of the present. Our support is fully granted to the current Master. The workload is growing, and it will become increasingly necessary to manage it; we have no doubt that this will be handled brilliantly. New arrangements will need to be made; we are fostering them in our own manner.

"May all work for the best, for their own welfare and especially that of the whole Mission, under our benevolent gaze.

"Blessings."
