Whispers from The Brighter World

Tuesday, February 10, 2015 — 10:00 a.m.

It is expected that this world will be uplifted to a considerable extent, and there is much to be done. Spiritual evolution is paramount under such a plan — one in which humans will have to re-examine their priorities in order to truly move forward. A spiritual approach is compatible with activities that are necessary on the material plane, and to combine the two states harmoniously is true inner wealth. May all our brother and sister abhyasis do so for their highest good. These messages are intended to help them put things into perspective and to illuminate their path when necessary, especially in difficult times.

"No life is free of trials, which most of the time arise unexpectedly. The movement of life does not spare anyone in this world; sooner or later it creates situations that lead human beings to surpass themselves and face up to reality as best as possible. An approach like the one we propose lays out the path and illuminates it when necessary. Although in certain circumstances it is possible to iron out difficulties, we cannot avert everything; karmic laws are unavoidable.

"In focusing on what is essential and feeding on the Divine, by following the line of conduct suggested by the Masters of this way of the heart, one saves considerable time. Brothers and sisters who join us discover this, and it reassures them; through Sahaj Marg, they gain valuable time. Is that not the goal? Everything has its raison d'être; every action is taken into account while enabling significant advancement when the action is inspired through the heart.

"The best to all, from the united Masters."
