Whispers from The Brighter World

Saturday, February 14, 2015 – 10:00 a.m.

These writings help, many testimonies from abhyasis confirm it – they are given for that; their action goes far beyond and will be revealed over time. They are known in different parts of the world and they act for the good of all. Writings of this kind are a real boon for this Mission; they will live on in memories, that is certain. A day will come when human beings truly open themselves to the transcendence of the spirit – that moment is hoped for and very much awaited. A spiritual way like ours works towards this; it does its best by preparing abhyasis as needed to access another level of consciousness.

Everything is slow here below. We cannot force anything, but what must be will be – of that there is no doubt. From the beginning, the action of our Mission has been remarkable, and the current means of communication supports the dissemination of its teachings. On this level, these times are blessed, and it is advisable to take full advantage of this while there is time. Each one of the spiritual Masters leaves his mark on the Mission and promotes its expansion in the world. There is no time to lose – it is counted. May all our aspirants do the best for themselves and for the entire Mission, supported and carried by our unceasing care and attention.

Blessings to all.
