Whispers from The Brighter World

Saturday, February 21, 2015 – 10:00 a.m.

This moment in a day is unique for your heart. Such a contact is not ordinary; you capture our words and transcribe them with love, and this constitutes for our brothers and sisters a reading that brings them – beyond the texts – a special transmission felt by fervent beings and pure hearts. There is no lack of them in our Mission, and this is rather heartening. Nothing is ever perfect in this world. Our action is directed towards special help capable of enlightening the seeker on the true purpose of his or her incarnation. It is a rare opportunity for one to advance towards what constitutes the very essence of life.

Few human beings understand it yet, focused as they are on material aspects. However, poor or rich, all have this potential that so many among them neglect. Many do so out of ignorance or lack of wisdom; when the path opens up before them, they neglect it and lose precious time. We cannot force anything. When our brothers and sisters leave this world, they can truly measure the extent of our action and what they have gained thanks to it and to their personal investment. Nothing is lost – what is obtained in this way of the heart continues and defies time, hence the importance of this work.

May all our abhyasis fully realise this and commit themselves as much as possible; they will not regret it, that is sure. To all, our blessings and help, in proportion to their call.
