Whispers from The Brighter World

Sunday, March 1, 2015 – 9:30 a.m.

Forget your worries; they should not disturb this heavenly contact, so elating for your heart. Life on Earth is as it is, and one must put up with it. The most important thing is elsewhere, you know this very well – you who can glide between worlds. Your gifts are not ordinary, hence our choice. Not all mediumships are good; not all of them would be able to express themselves here. Doesn't everything have its raison d'être! Everyone plays their part here below, as expected in the vast divine plans that are followed and adapted to humankind. Each kingdom here below has its own laws which are respected by the species concerned. However, human beings cannot yet find a desirable balance, and this will be needed in order to manage the major changes to come all over this Earth.

A new era will bring the different kingdoms together, for a perfect and desired union. This way of Sahaj Marg is a gem whose true potential will be discovered with time. While becoming more refined, the human being will adjust more easily to principles that are not yet revealed, and for good reasons. Everything will fall into place as planned by the higher authorities – "what must be will be".

May all our abhyasis motivate themselves and win over, in their own manner, this sacred space offered to them; we are helping them as best as possible.

Special blessings.
