Whispers from The Brighter World

Monday, March 16, 2015 — 10:00 a.m.

This long journey comprised of messages has been fruitful. Many hearts feed on these writings and manage to capture the subtle energy they release. The messages will increasingly become an important reference point in our Mission. Our abhyasis are advancing; many souls are being elevated and thus is the egregore of the Mission strengthened, in keeping with a planned elevation that is satisfactory in every respect. Human failings cannot be ignored completely. Ironing out differences remains a challenge, as perfection does not exist on Earth — nor will it come tomorrow. To challenge decisions that have been made at the highest level is not a sign of wisdom. May all manage to one day modify egotistical reactions, which are harmful for this entire path of the heart and especially for themselves.

"Sahaj Marg is proceeding on a luminous path at the highest level, thus connecting many souls who are eager to follow a way that is apparently simple at the human level but highly effective beyond the material realm — a realm in which many beings are in need. This world is mired in an exceptional state of negativity that is nearing its height; it is time to react before it is too late. Following a spiritual path with faith and determination protects one from negative aspects generated in the world of matter. The sovereign Spirit, as mentioned here, protects one from many evils. May all unite and be strengthened by following this unparalleled path.

"Special blessings."
