Whispers from The Brighter World

Friday, March 20, 2015 – 10:00 a.m.

Can you really imagine the impact these messages have in people's hearts? This isn't possible. A written text travels through time; it leaves its mark when so willed by the higher powers, as is the case here. Centuries pass, minds open up and the teaching changes – this is normal. The teaching should therefore be adapted to present times which are heralding substantial changes necessary for human evolution. How to touch hearts and lead them to an awareness of a reality that is impalpable yet effective in its results. The being, once refined, advances in his or her perceptions, and imperceptibly these lead the being towards the Ultimate, where the veil of illusion is lifted to reveal the effects of divine splendour. How can the human being imagine such splendour? In the current era, the perception of phenomena is still limited. It will take time on this Earth for knowledge to reach the ultimate stage.

All that we give in these messages must be known to our abhyasis; are we not able to judge what should be done for the welfare of all our aspirants. Their number is growing in the world, and this is only the beginning with respect to what it will be in the future when true knowledge will be deepened. The vibration of these messages is not yet fully perceived, but it touches enough hearts for us to be happy. May time bring true knowledge upon this Earth; such is our wish.
