Whispers from The Brighter World

Thursday, March 26, 2015 – 9:30 a.m.

Caught up in the bustle of days, the human being advances towards his or her destiny. Each day fills a page in the book of life – eventful, mundane. Everything in it contributes to a person's karma. Karma is decisive, it presupposes a story. How will the story end, there lies the mystery. Surrendering to the Divine brings comfort, to a certain extent; nothing ever goes as planned. These laws are inescapable and cannot be known in advance – they always hold their share of mystery.

Love, the kind that illuminates a life and gives it all its appeal, is indefinable. It is cultivated over the course of days, beyond human vicissitudes. What would life be without it! Mystics are unable to envision such a life, so much does love carry all their days. Following the Sahaj Marg path is a real opportunity given to human beings to seize the best of an incarnation. It allows one to better understand why the laws of life are as they are.

To have a guide, a spiritual Master, is a rare opportunity; to become aware of it is wise, as this approach saves valuable time. The hierarchy of Masters is attentive to all – no one is forgotten, as some of our aspirants may believe. The impossibility of solving all problems does not indicate a lack of interest or abandonment; we act for the good of all and in the best way for each one, even if this doesn't necessarily meet their expectations. In this is accomplished what is to be. One day, the truth will emerge from all this. An

incarnation is quickly passed, then other horizons open up for each one to explore, under our blessings.
