Whispers from The Brighter World

Wednesday, April 8, 2015 – 10:00 a.m.

Let yourself be swept away by this redeeming wave. These contacts have embellished your heart, and this for so many years; do not feel embarrassed by the mention of this. Here, mediumship was not enough; only a special relationship with our hearts has made possible this unique achievement – one that has been wished for by the entire Hierarchy for the good of this spiritual Mission, supported and truly carried by the alliance of Masters. All here are attentive to its expansion in the world; its very positive effects are so greatly appreciated. We still expect a lot from this fourth Master, who is carried and entrusted by us so as to accomplish the best and to permanently establish this spiritual Mission in the world. This aspect of life is essential: it has a moderating influence and allows for the extension of the good as it should be established on this Earth.

Everything is so slow here below. It does take perseverance for values like those of our path to be recognised and appreciated at their true value. What must be will be. Good always finds its rightful place, and such is the case for Sahaj Marg. Let us continue for some more time with these messages. They are awaited by many fervent hearts and we are happy for that. What you achieve every day, in spite of everything, is an act of love. It is appreciated at its true value, you can be sure. It is spontaneous and most fervent; there lies the essential basis for such work. But does our dearest scribe consider it work? Surely not! So it is, and we are appreciative.

May all our abhyasis benefit from this very special teaching.
Blessings to all.

Babuji
