Whispers from The Brighter World

Friday, April 17, 2015 — 10:00 a.m.

These writings carry a subtle energy, as we often say. They will continue to inspire our dearest son Kamlesh who has taken on his role as a Master brilliantly. We follow him step by step, like a precious treasure; he is our spokesperson, the chosen soul for this unparalleled position within this great Mission. The Mission's continual development requires great attention. It will go far in time, and its action will be exemplary in terms of the welfare it can provide when it is followed appropriately. We encourage our abhyasis to fully benefit from this subtle energy, which in the long run enchants hearts that are offered to it. This precious organ holds a wonder — a priceless jewel that supports life and holds secrets, ones that humans cannot see but which do not escape our vigilance. When these jewels, haloed with love, become visible to our eyes, we protect them with happiness, in our own manner.

"A big seminar is being prepared in this country; it will be a rare moment. May the greatest number benefit from it. During this event, France, as the country is called, will receive as it should and benefit from rare blessings — this is to be emphasised now. May all beings who are committed to this way, wherever they will be during the event, join the living Master and all of us united here, and benefit fully from our special blessings. This is how it is."
