Whispers from The Brighter World

Sunday, April 19, 2015 — 10:00 a.m.
Anniversary of Babuji Maharaj's Mahasamadhi

Yes, this day is special; it was a milestone on the journey of a soul aspiring above all to join the divine source. This step is important, and one should not neglect it as human beings generally do. Life and death lose their mysteries; they cannot be revealed in the current era, as this would result in too much confusion. The human being must grow and advance in knowledge — the knowledge that determines all aspects of life in this world. This is not for tomorrow. Important work remains to be done; this world is subjected to so much negativity. Humans in general care little about all of the laws that are beyond their understanding. They have enough to do in tending to their daily existence. Wise beings who are open to spirituality are gradually gaining access to the foundations of knowledge — that which determines all life and the fundamental aspects of reincarnation for all living beings.

"A spiritual approach is essential for the real progress of a soul that is called, on its journey towards the eternal, to experience all situations that can facilitate its advancement. This fact is decisive for the continuation of this journey — one that is uncommon and unrecognised by humans. True reality is beyond their reach, but it can be approached when one follows the path — notably, that of the heart — with this very special work that is proposed in our Mission. This opens up valuable prospects, you can be sure. May all achieve the best.

"Special blessings."
