Whispers from The Brighter World

Monday, April 20, 2015 – 10:00 a.m.

This moment is pleasant; it generates happiness. This meeting is known to many souls who follow this ritual assiduously. May our incarnate brothers and sisters fully grasp the importance of these writings. They are genuine and will remain a reference in our Mission; this should be emphasised once again. To rise above the baseness of this world is wise and comforts the aspirant on his or her journey towards the Eternal. Our chosen scribe has accomplished her task with love and a true detachment from human conventions. Her commitment towards us has, on its own, produced her action; it is unique, and we appreciate it.

This history of the messages is not ordinary. Only this kind of love could yield such a treasure, one that will help our dear Kamlesh. He is entering into his role brilliantly and will leave an exceptional imprint in our Mission. Doesn't everything have its raison d'être! Here too our choices are justified. From here we can see the world and humans in their authenticity, and this allows us to make the choices that are called for when necessary. Far from this world of illusion that characterizes humanity, we can act with full consciousness – detached, and for good reason, from material interests. May this beautiful Sahaj Marg Mission never cease to evolve and thus help the greatest number

to advance towards the goal – the ultimate one and the only one worthwhile. Earthly riches are but an illusion and can vanish in an instant. This is how it is.

May all be carried and enlightened at the highest level, under our blessings.
