Whispers from The Brighter World

Tuesday, April 21, 2015 — 10:00 a.m.

The winning over of hearts happens slowly on Earth, as do [all processes of] everything that lives and expresses itself in its own manner. The scale of creation is amazing, and when studied in all its aspects, it reveals an infinite splendour. Divine power imposes no limits on itself: it creates, generates, produces — there are no words to describe it!

"The worlds differ; this one has its own characteristics, allowing human beings to follow a line of conduct in which their karma can manifest itself. Doesn't everything have its raison d'être! Doing one's best is not a simple matter. So many difficulties are imposed on all — they come to each person according to his or her respective path. No one can plan it in broad outlines. A person is astonished and often confused by these difficulties that constitute the baggage of the incarnate being in the face of this unparalleled power. Finding one's place in the context of life with its multiple facets is not easy. Great and beautiful souls succeed in this when they are carried so as to accomplish great things for the benefit of humanity.

"Long is the journey. Here, time means nothing in the face of eternity; it is merely an element of little importance. Time raises so many questions! Following a spiritual path helps one find one's bearings, deepen the human reality, and above all advance in this approach towards the Divine. How it enriches the human being! May all our aspirants realise it and explore this possibility more than ever.

"Special blessings to all."

Parthasarathi
