Whispers from The Brighter World

Friday, April 24, 2015 — 10:00 a.m.

This unprecedented wealth of writings testifies to a most unusual love story; this is worth emphasising. Such a state of steadfastness and surrender is not commonplace. Over the years, pages upon pages have been written; it had to be so. Our chosen scribe did not ask for anything, and yet she was our choice, for good reasons. Doesn't everything precisely have its raison d'être! Everyone has their own karma, their own history — these are inescapable facts. The history of our Mission fits into a special category, as desired by the higher authorities in order to provide this new element for hearts in need; that is to say, a practice that is not too demanding, that is non-sectarian and — in the long run — rewarding beyond imagination, as its simplicity makes it accessible to all. The new era will lead more and more people to aspire for the Divine. This aspiration will be essential in times to come when a radical change in vibrations will take place — a change that is real, whether it is perceptible or not.

"So much ugliness characterises today's world — how can it change? Only the divine power in its full manifestation can achieve this and, after many upheavals, bring about positive and satisfactory elements to promote such changes. The task is huge, but it must be considered. The divine grandeur imposes no limits on itself; this is fortunate, especially in a seemingly hopeless state of affairs such as this. No matter: God is Great and the human being is truly small in the face of His power.

"To all, our blessings."
