Whispers from The Brighter World

Saturday, April 25, 2015 – 10:00 a.m.

Rituals are important; here they have punctuated the days for so many years. These writings are part of the lives of many of our brother and sister abhyasis – they are a sacred gift whose scope our abhyasis cannot imagine. As in all things, time positions events differently; these writings will become a reference for our Mission. It is following its path, it is asserting itself here below, its foundations are solid and the support of the higher powers unwavering. Sahaj Marg is already a long story; it has its origins in India, and it will help more and more people around the world who aspire to rise towards other spaces where their souls will be able to regain the original purity that determines human evolution, as planned for future times.

A day will come when everything will have to be reconsidered here below. As was the case in a distant past, new foundations will be established in order to foster development at all levels. This world is currently suffering from a thousand ills, and the means to remedy them have not yet been acquired. Major upheavals will facilitate this process. All this is currently beyond the reach of human beings. A day will come when they will realise that everything, including numerous sufferings, has its raison d'être, in order to reach another level of consciousness and truly progress. Our support in this is

unfailing for all. Each and every one, in their own measure, receives what is appropriate to allow them to access that sacred place which they aspire to reach.

Blessings to all.

Babuji
