Whispers from The Brighter World

Wednesday, April 29, 2015 — 8:00 a.m.

Why would you not let your heart sing — these writings are beautiful, and they will be appreciated. Doesn't everything have its raison d'être! What is done spontaneously with sincerity is bound to touch some sensitive souls. Your 'song of the heart' will not be forgotten.

"Life is a long series of events. Our Mission is moving on, and its action in people's hearts is expanding. The magnificent structure that is being built in Hyderabad will be an architectural masterpiece for the Sahaj Marg Mission, but also, and above all, a high place of spirituality that will remain through time — particularly in people's hearts through its unprecedented vibratory action. We can only rejoice for that and fully endorse this enormous project whose foundations are already well established. The story of our beautiful Mission is inscribed in time. Happy are those who are committed to serving the Masters for the Mission's development and expansion in the world.

"Sahaj Marg is not finished with astounding people; its apparent simplicity belies its power of action. Words are one thing, but the results obtained by virtue of this method are another. From here, we can fully appreciate the benefits it generates. The future will increasingly bring to light this reality. May all our abhyasis focus on the essentials and fully benefit from the opportunity offered them to make real progress, backed by our ceaseless action.

"Blessings to all."
