Whispers from The Brighter World

Saturday, May 9, 2015 — 10:00 a.m.

Relax, and be at peace; we do know what you are going through — the rest does not matter. All these writings represent a priceless jewel, and they help many of our brothers and sisters. This touches us, you can be sure. The new Master of the Mission is taking on his job in a masterly fashion, and we fully support him in his action. It is appropriate in this case, as in any other, to face up to the present as well as the future that is in the making. New arrangements must be adopted and will be made over time to meet all kinds of needs. What is being conveyed by this spiritual path is important and will be increasingly justified in the eyes of a great number of beings in need. In this matter, our action is fully justified. This world has to change, and it will have to adapt to the necessities of life, in all its forms. This path of Sahaj Marg has an important role to play in the divine plan. Everything is being set up as required, according to the divine will whose action is inescapable. From time immemorial, human beings have adapted themselves to the conditions imposed in this world; they will have to do so more and more for their own survival and personal evolution.

"May the end of this seminar bring peace and love to this ashram, one which will become increasingly important. Very special blessings on this day — a blessed day for all."
