Whispers from The Brighter World

Sunday, May 10, 2015 – 10:00 a.m.

This visit has been beneficial for all; the visit of a spiritual Master is always a blessing. Sahaj Marg will go far in its expansion on this Earth; the human being will feel an ever increasing need to connect to the Divine. Upcoming upheavals will bring about many changes, including a different energy, a vibration perceptible by beings sensitive to its manifestation. Following such a spiritual path fosters the opening of vital centres at subtler levels. This is not just about a simple process; other effects occur for the welfare of diligent practitioners convinced of this path's benefits.

May the time come when this world will open to the splendour of the sovereign Spirit. The results obtained globally by this spiritual path are quite significant. A dramatic breakthrough will occur, and the best will be established for the continuation and the action of this extraordinary work in people's hearts. Let us not pressure our brothers and sisters; their deep convictions about these matters will get stronger with time and through proper practice. The challenge is here: to lead abhyasis more and more to truly commit themselves, for their own greater good.

May peace and love prevail in people's hearts, for the greater good of humanity.

Babuji
