My Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, May 17, 2015 — 10:00 a.m.

We help you in everyday life; we support you in this struggle where love carries you in the face of all opposition. There lies your strength, your best ally, and we can see the results of it in these numerous messages. They are a valuable asset for our Mission. All of them are handled and preserved for the good of all; thus the future will be nourished by them as well. Doesn't everything have its raison d'être! The history of the world is translated into visible forms erected by human beings, but from time immemorial, writings have constituted a very precious asset. This should be considered, and what is done in this direction is very wise. Whatever the future will be, it should be prepared effectively, preciously guarding all that constitutes the references of our spiritual way. This includes the writings of the Masters, which are a real treasure dedicated to all our brothers and sisters.

"This great structure under construction in Hyderabad will also be a reference of Sahaj Marg. Our energies are already being focused on it, thereby making it the blessed sanctuary of our way. May all efforts be geared accordingly for the achievement of this sacred temple. Our dear Kamlesh is currently seeing to it. We have total confidence in him that the best will be generated. His action is already proving to be positive, and this is just the beginning. To him and to all, we wish strength and courage in all things in order to go towards the most important thing — the goal — under our special blessings."
