Whispers from The Brighter World

Monday, May 18, 2015 — 10:00 a.m.

Such a love story cannot end — it will leave traces and will have an indelible influence on the Mission. One might say that the soul of the Mission is being expressed here. Being divinely inspired, these texts will increasingly help our brothers and sisters who are open to such a discourse.

"Our dear Kamlesh is beginning his journey with strength. This journey will henceforth be marked by his personality, which is well suited to the work he will carry out and expand throughout the world. We will guide him as best as possible according to needs that will become increasingly vital. The Mission must be more structured to meet a growing call. This world is subjected to so much that is harmful and to fluctuations of all kinds that disturb a great number of people.

"The recourse of faith in a higher power is an asset for many who are trying to understand the reason for an incarnation, specifically the one they presently have to live. Sahaj Marg does not rigorously impose anything — it suggests. It helps a lot of brothers and sisters by genuinely acting on their personal equilibrium. Subtlety is at work in this matter; the transmission is adapted to the needs of each person and has its effects, you can be sure. This way of the heart works discreetly but effectively. Let us repeat that this way of the heart works for the welfare of all. One day, the divine goal will be achieved and then another phase will begin — namely, the transcendence of the Spirit in all its states.

"This is how it is."
