Whispers from The Brighter World

Monday, June 1, 2015 — 10:00 a.m.

Divest yourself of that which is unnecessary. We do know about your difficulties; they are well hidden and this makes them all the more productive. The long road of life is a test, heavier for some than for others, but it is unavoidable; one must resign oneself and keep moving forward. We know the heart of each of our abhyasis. We help them in our own manner, and we see that they move appropriately on their personal journey. Each step is important, and this should not be forgotten. What are we: a breath, a nothing, and nothing more — and yet, every life is necessary, forming a part of creation as designed by the higher powers. It is not easy for human beings to understand the ups and downs of life. For some, it is unjust and holds little interest, and yet every fragment of life, however small, has its own importance.

"The divine laws are, and will remain, a mystery for human beings. How could they understand where the reality of all things lies. Our way recommends surrender — there, precisely, one finds wisdom. It can provide much in this practice — one in which a real transformation of beings takes place even though some traits remain. It takes time to overcome that which hinders the evolution of the being. So many aspects contribute to it, but hope is down the road and nothing is done in vain, as we have said many a time. May all become aware of that which is essential and successfully pursue this struggle towards the Ultimate."
