Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, June 14, 2015 – 10:00 a.m.

Only the love that carries you can produce such work. Here, it expresses itself in its own manner, allowing us to convey what we think is important in the journey of our abhyasis. This spiritual nourishment refreshes fervent hearts that feel, while reading these messages, all the subtlety of the vibrations they emit. This approach is special. Everything in our Mission is considered in relation to the good our brothers and sisters can derive from it – the teachings and the sacred places where our work is carried out by an incarnate spiritual Master endowed with powers he himself cannot imagine. Thus is Sahaj Marg positioned in the current era – at a pivotal point between two periods of history. It is decisive in its influence upon the lives of our committed abhyasis who are regular in their practice. They thereby save valuable time without really realising it, and yet the results are there, you can be sure – that is what matters.

Our way will continue to grow, to prosper in its action and, through its benefits, to bring true aspirants to spirituality, that which transforms and elevates the soul above the miasmas of a degraded material world that no longer meets the desired criteria for a planned evolution. Sincere hearts determined in their efforts are heard and supported according to their deepest yearning. No one is forgotten – our action goes even beyond the circle of our brothers and sisters; the beings around them also benefit from this work.

Thus all is well. It is up to each one to be more invested than ever. To them, the best; in our care they are held.

Blessings.

Babuji
