Whispers from The Brighter World

Monday, June 15, 2015 — 10:00 a.m.

This beautiful testimony about the importance of the messages for our abhyasis can only help you during this difficult time. The messages are not given in vain. This ritual is sacred, you can be sure; the future will justify these remarks. Such writings are a true asset for our Mission and will remain a testimony, a teaching, that will defy time. This is how it is, dear scribe. History will remember what is important, and that is reassuring. The new era will preserve what is necessary for human evolution and must be structured from this perspective. It must evolve favourably in the knowledge of a reality that still escapes the majority of men and women, who deny the principle of reincarnation for erroneous reasons. This reality is quite reassuring; nothing is lost. Everything is possible in terms of what is good and the opportunities granted to human beings to progress and discover within themselves that which is the very principle of life — namely, the divine and creative energy that is able to accomplish wonders.

"To follow a spiritual way that opens the mind to knowledge is a very valuable advantage in life. Each life allows one to progress and the soul to be lifted until it attains 'reality'. We do not claim to provide everything; we simply light the path sufficiently and promote the advancement of our abhyasis. Since its inception in this world, our way has helped so many hearts — it is gratifying to note this here. To all of you, we wish perseverance and faith in achieving the goal. It is worth it, you can be sure.

"Endless blessings to all hearts that are open to our action."
