Whispers from The Brighter World

Monday, June 22, 2015 — 10:00 a.m.

All these years of regular contacts have allowed a multitude of messages to be written down; this fact is unprecedented in the history of spirituality. These messages truly emanate from the alliance of Sahaj Marg Masters and are protected from imitation in our Mission — an imitation that would be undesirable and repetitive for the wrong reasons. We are not judging, we are stating a fact; that's all. The objective here is to move towards the goal. It is healthy, powerful in its effects beyond human appreciation and so very productive of what is best. Many beautiful souls form a magical chain, delineating the space allotted to them and acting in the best way possible so as to extend this beautiful aura over our Mission. They are carried by our care and are blossoming on this path that is so productive. Over time, we can assess the impact that is produced here in this way of the heart. Simple in its approach, it does not offer miracles, although extraordinary events do take place by the grace of the Masters and for the good of our abhyasis.

"We want the best for all, which entails sufficient involvement to capture our energies and make the most of them. A lifetime is of short duration; there is no time to lose. Everything counts and is beneficial when it emanates from a heart that is eager to love and that is involved in this unparalleled journey. We wish a true commitment for all and, above all, one that is beneficial in the way we understand it. A lifetime is brief; the best remains to be attained, under our endless blessings."
