Whispers from The Brighter World

Wednesday, June 24, 2015 – 10:00 a.m.

Offer your heart to the divine presence, that which delights you beyond words. This transmission is intended for the good of all our abhyasis who are privileged to receive this reading – is it not given for this! Such a manna of messages is not received in vain; it is a true asset for our Mission. Time will confirm this statement, you can be sure. We will look after the Mission; its expansion is programmed, and we are preparing the future while supporting the work of the current Master. He has become perfectly integrated, and will do great things. He is a builder, in the broad sense of the term. Many projects will be carried out towards a wider expansion around the world. Ashrams will spring up here and there. The spirit of the Mission will integrate naturally into some cultures. It is not domineering, and it respects the tendencies and customs of all. Only a call from the heart is decisive in this matter. It is up to one and all to follow their path according to their deepest aspirations.

An incarnation is short in the face of the Eternal; it offers opportunities that the aspirant may seize to make the most out of the sadhana. A life is complex. Human beings are always faced with choices and it is incumbent upon them to make the best ones, especially within the register of their spiritual evolution. This remains a sustainable asset beyond the current life. It is not lost, and it bears fruit with time.

May all our brothers and sisters realise the opportunity offered to them to truly progress towards the goal, under our customary encouragement and blessings.
