Whispers from The Brighter World

Tuesday, June 30, 2015 – 10:00 a.m.

These writings seem insignificant, yet they are important in the context of our Mission. They are proposed for reasons which everyone can appreciate as they see fit. What matters is that they exist; time gives events their rightful place. Little by little, this Sahaj Marg Mission is being built to one day reach its highest level of action. What is good for humans is appreciable. So much ugliness and tragedy, fuelled by hatred, is taking place in the world, whereas another space of peace and love could provide humanity with a dimension much more fulfilling for everyone. When will human beings understand that violence leads nowhere and that, caught up in this movement, they are jeopardising their own evolution in a very harmful way! May all beings who are open to the power of divine love work towards the good, each in their own manner, to help this distressed world.

Spirituality is important, and yet it is so neglected and unrecognised for what it is: a decisive factor in human evolution. A day will come when everything will fall into place in this regard, bringing to Earth a new era, predicted by the sages of long ago and achievable in its redeeming effects. It is up to one and all to find their ideal in life, their path, that which truly frees them from the status of small human beings subjected to the excesses of modern life in all its manifestations.

Love and blessings to all

Babuji
