Whispers from The Brighter World

Wednesday, July 1, 2015 — 10:00 a.m.

Repetition is necessary; it is the very principle of life. In these messages, we use it wisely. Our abhyasis need these numerous reminders so that they do not lose sight of the very essence of our spiritual path — namely, the redeeming energy emanating from the most sensitive point of the being, i.e. the heart. It is the seat of the soul and is receptive to the subtle work that takes place in our Mission. This aspect is essential in such an approach. The heart, this very special organ, has not yet revealed all its capabilities. Future times will allow for this and will coincide with an unprecedented expansion of consciousness. Sahaj Marg is positioned with this perspective and is already preparing for it, even if its capabilities are not yet fully understood. The result achieved among our brothers and sisters is very satisfying. Here we can assess this in all its aspects.

"It takes time in this world for the best to prevail. Human beings reject on principle what they do not know. Misconceptions are well established and they persist, being maintained for erroneous reasons. This is how humanity is, and we cannot change it. We can only help our brothers and sisters who are committed to this unique process, the results of which delight us. One must go further back in time to find very advanced civilisations that left some traces of a knowledge that, for the wrong reasons, remains unrecognised to this day. No matter. One day, the divine goal will be achieved; we are working accordingly with the help of all of you, under our blessings."
