Whispers from The Brighter World

Thursday, July 2, 2015 — 10:00 a.m.

This rendezvous is precious in more respects than one; it connects us to the hearts of all our brother and sister abhyasis who are attentive to the content of these writings. The words are the same, but the principle lies in the special transmission that occurs therein, affecting the being in its subtlest dimension. These messages are not given in vain. Why would we give them for so many years if they were not important? Carried by the love of a passionate heart, they align themselves on paper and will defy time. Writings of this kind have their importance. So has it always been in history, where such writings have left a lasting impression. Action is important and personal commitment is decisive in this uncommon approach. The practice we offer is available to all. It does not require excessive efforts, only those that are suitable for this method — one that is more efficient than it appears.

"Helping our abhyasis grow is the challenge that is being presented. All these years of Sahaj Marg are compelling, you can be sure; we are well placed here to judge this. A new era is emerging on the horizon. Everything is very slow on this Earth — each world offers different characteristics in which beings evolve according to plan, not according to their convenience, and this is for their own good. The work done in Sahaj Marg is valuable, opening doors that would otherwise be closed to the aspirant. Therefore, it is up to each and every one to be committed for their own good.

"May all be carried by grace — such is our wish and our action."
