Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, July 6, 2015 – 10:00 a.m.

This long journey of messages has touched many souls that are sensitive not only to our words but also to the vibration they emit. Why would they be given, and for such a long time, if they were not of real interest to the reader. Doesn't everything in our way have its raison d'être! Many mysteries will persist, which only time will reveal, and for good reason. Our dear son Kamlesh is a fighter, an innovator; it had to be thus, in relation to the expansion of this spiritual path, which is suited to the present and holds many surprises for when the time is right. We cannot anticipate events; the important thing for our brothers and sisters is that they truly commit and take advantage of what is offered to them for their highest good, even if they do not fully realise it. No matter – our action is there, and you can be sure that it benefits one and all. Here, there is no need for great displays; thousands of abhyasis can gather in silence and fully benefit from a particular transmission that is beneficial beyond human appreciation.

We focus on what is essential. These words are not in vain, you can be sure. When the time for assessment comes, each one will be able to judge this and appreciate what these years of personal investment have brought them. We want the best for all. The Mission is expanding around the world; here there is a need to adapt and find the best possible means for a maximum efficiency that meets the needs of all. To advance in the

footsteps of the incarnate spiritual Master is a grace – may all truly become aware of it and, above all, waste no time.

Special blessings from the entire Hierarchy, who are attentive to this Mission.

Babuji
