Whispers from The Brighter World

Tuesday, July 14, 2015 — 10:00 a.m.

Each person is advancing in his or her own manner; when the call of the heart is expressed, one's entire way of seeing things changes and life takes on a whole new meaning. The aspirant receives according to his or her call. Sometimes after several years of practice one realises the progress made and becomes even more committed. Nothing can be forced. What matters is to start, then grace steps in and accomplishes what needs to be done for the evolution of the aspirant. We follow and support each one in our own manner. The action of the Mission forms a coherent whole, and the ensuing results are very convincing. This world is going adrift in certain respects; many human beings have no reference point — without having set any objective, they search in vain for a real reason to exist in this world.

"Our method is more active than it may seem; sensational rituals are not necessary. Important gatherings take place for special occasions, including the birth anniversaries of each of the Masters of this Mission. That of our great and dear Parthasarathi is approaching; he has given so much of himself to the Mission and to each of our brothers and sisters that a special tribute will soon be given to him. That day will be special for all our brothers and sisters and for him, too — he who is always present, as we all are, and sensitive to the welfare of our expanding way of the heart. The monitoring of it continues to motivate us, and one could say that this is just beginning.

"To all our brothers and sisters, we wish the best possible in their fulfilment of this particular path. Endless blessings to all."
