Whispers from The Brighter World

Wednesday, July 15, 2015 — 10:00 a.m.

The purpose of these messages is to touch the hearts of our brothers and sisters. These are not literary masterpieces — such is not our purpose. Those who accept them as they are understand this very well and benefit from this kind of uncommon transmission. Our action is thus diffused in different ways, with utmost subtlety, and many of our readers feel it that way. Why would these thousands of messages be given if they were not valuable to our Mission; they operate in their own manner on subtle points. All of the work that is carried out on this path is out of the ordinary. It stands out in a particular way and is much more effective than it seems. There lies the important thing, and you can be sure the results are perceivable; without that our Mission would not exist. It meets the needs of this time, one in which the quest for the Divine can be both active and productive.

"The current Master of the Mission is being innovative with regard to certain aspects of the practice, which in the current era can only facilitate the approach of our aspirants. Changes are sometimes necessary for the greater good. Everything must be put into place in the world in order to promote the development of this extraordinarily effective way. Only time will confirm its benefits, and its power of action will keep growing. This is how it is, one might say. This way of the heart has many surprises in store for the time when a full knowledge of spirituality will be more accessible to all. There is yet a long way to go; our action in this direction provides for it.

"Blessings to all."
