Whispers from The Brighter World

Tuesday, July 21, 2015 – 10:00 a.m.

A great day is being prepared in our Mission; it relates, of course, to the birthday celebration of our dearest Parthasarathi. He has given so much to the Mission; it has taken flight with him, prefiguring what it will surely become over time under the leadership of his successor. These special meetings of abhyasis are very important; they create a flow of subtle energies that generate the best effects. Every time these highly spiritualised meetings of the heart take place, they weave relationships on the human level and promote an unprecedented transmission according to the will of all the Masters involved in them. Many human beings aspire to follow such a process without even being really aware of it. It is a natural need; the aspiration of the soul to rise manifests one day and takes on its full meaning when the heart calls. Then, it is a matter of finding the path capable of satisfying that need. Sahaj Marg is precisely one such path. Accessible to the greatest number, it is not dogmatic; each person assimilates the essential principles and follows the proposed path in his or her own way.

Unity is strength. Its power of action is particularly evident during these major seminars in which a very special transmission is flowing. We want the best for all our abhyasis; each one receives according to their call, and this fact is not trivial. Grace operates as it sees fit and fulfils more than one heart in need. Thus is the ritual accomplished: the union of hearts under the guidance of a sacred force capable of

achieving the best possible, the most rewarding for one and all, under the subtle action of the alliance of Sahaj Marg Masters.

Blessings.

Babuji
