Whispers from The Brighter World

Wednesday, July 22, 2015 – 10:00 a.m.

The essential thing has been said by our dearest Parthasarathi. This birth anniversary will be very special in its effects, like all those of the Masters of the Mission. They bring a particular breath, a rare blessing to all our brothers and sisters who, though scattered throughout the world, are but One in our hearts. A particular attention manifests on these very special days; it is generated by the fervour of all the abhyasis scattered around the world. All are followed, you can be sure, and blessed; wherever they may be, the connection remains the same for us here where nothing is inaccessible, and the transmission is even more powerful in its effects on such days.

May this seminar affect hearts in a special way; by divine grace, its action will be very strong, as it will be especially carried by the spiritual Masters of this Mission and beyond.

To all our brothers and sisters, the best possible.

Babuji
