Whispers from The Brighter World

Friday, July 31, 2015 — 10:00 a.m.

Life follows its course, and each one has his or her own destiny. When it unfolds within the framework of a spiritual way, valuable time is saved. Nobody is perfect, even in a movement like ours. The cleaning as proposed in Sahaj Marg helps considerably in the long term, on all levels. This fact is not insignificant; sittings and cleanings are major assets. In this system, all aspects must be considered. The commitment of the heart is based on human circumstances in all their diversity. We can assess the results obtained; the method offered to today's human being is remarkable in its effects. Such is the current assessment, which should be considered in order to extend the benefits farther than they reach today.

"We are looking at this aspect, and human beings are progressing. Slowly but irreversibly they are opening up to the power of the Spirit, which in the future will manage to prevail for the welfare of one and all. Sahaj Marg will be able to adapt. The current Master is not short of resources; he will face up to things brilliantly and will be increasingly inspired to perfect that which already exists, by making adjustments to certain assets. A day will come when this way will astonish people with capabilities that are visible to open minds and will become highly effective. This whole assessment is cause for rejoicing — why not share it with our brothers and sisters. Those who are most fervent in their practice already feel it. At the dawn of a new era, the best can be hoped for; we are working accordingly. May all be carried and convinced by this unique action for the elevation of each one, under our ceaseless blessings."
